INSTALLATION

Install the mounting stud(2) into the mixer body base(3). Slide the washer(4) over the flexible hoses(1) and mounting stud, and into the groove at the bottom of the mixer body.

Insert the basin mixer assembly into the basin hole. Position the basin mixer. From underside of the basin, place the bracket(5, Rubber washer is on the top) onto the mounting stud, and secure the basin mixer with the nut(6).

Attach the hoses to water supplies. When facing front of the basin mixer , the left hose connects to hot water, the right hose with blue mark connects to cold water.

INSTALLATION CHECKOUT

Ensure that all connections are tight. Ensure that the lever is in the off position.

Turn on the drain and main water supply, and check for leaks. Repair as needed.

CLEANING INSTRUCTIONS

All Finishes: Clean the finish with mild soap and warm water. Wipe entire surface completely dry with clean soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc, which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.
